PRECISION MANUFACTURED IN THE USA

TRIDENT INDUSTRIES INC.

CAPABILITIES

CAPABILITIES CATALOG

Services, materials, machines, and tolerances for aerospace, defense, and weapon systems.

AEROSPACE • DEFENSE • WEAPON SYSTEMS • LAND SYSTEMS

TRIDENTINDUSTRIESINC.COM

WHAT WE DELIVER

CAPABILITIES AT A GLANCE

ADVANCED SYSTEM ENGINEERING

Cutting-edge hardware solutions that address the modernization priorities of the Department of Defense, including classified initiatives.

ADVANCED MANUFACTURING

A substantial in-house facility dedicated to the fabrication of ground support hardware and mission-critical components.

INTEGRATION & ENHANCEMENT

Developing next-generation defense hardware, advanced land systems, and a wide array of innovative integrated solutions.

ZERO-COMPROMISE MANUFACTURING

CAPABILITIES

FULL-SPECTRUM MANUFACTURING

From complex 5-axis CNC milling to metal 3D printing — Trident Industries is a single-source manufacturer for the industries that demand zero compromise. Every part we deliver reflects our commitment to manufacturing excellence.

SERVICES

- 3-, 4- & 5-Axis CNC Milling
- CNC Turning & Lathe Work
- Metal & Polymer 3D Printing
- 3D Scanning & Inspection
- Reverse Engineering
- CAD / CAM Design & Engineering

CATALOG

MATERIALS

Aerospace and defense alloys for prototype and production.

ALUMINUM

- 6061-T6, 7075-T6, 2024-T351

STAINLESS STEEL

- 303, 304, 316, 17-4 PH, 15-5 PH

TITANIUM

- Grade 2, Ti-6Al-4V (Grade 5)

SUPERALLOYS

- Inconel 625 / 718, Hastelloy

OTHER METALS

- Brass, Bronze, Copper, Tool Steels (A2/D2/S7)

ENGINEERING PLASTICS

- Delrin, PEEK, Ultem, Nylon, ABS

CATALOG

MACHINES

From 3-axis production to 5-axis simultaneous and live-tool turning.

CNC MILLING

- 3-Axis VMC
- 4-Axis (indexed + continuous)
- 5-Axis simultaneous
- Bridge mills

CNC TURNING

- 2-axis lathe
- Live-tool lathe
- Swiss lathe

EDM

- Wire EDM
- Sinker EDM

ADDITIVE

- DMLS / SLM (metal)
- FDM / SLA (polymer)

INSPECTION

- CMM, 3D scanning, GD&T

TOLERANCES

Tightest: ±0.0002"
Envelope: 60" × 30" × 30"
Runs: prototype to production
